**Re: J.D. Vance Investment in HealthCare Interactive, Inc. of Minneapolis, MN**

It has come to our attention that the 2022 United States Senate financial disclosures by U.S. Senator J.D. Vance inaccurately listed HealthCare Interactive, Inc. of Minneapolis, MN as the recipient of an investment in 'Corporate Securities Non-Public Stock.' **This is not accurate.**

HealthCare Interactive, Inc. of Minneapolis, MN, is a privately held company with no outside investors other than myself—John V. Hobday, CEO and Founder. For 27 years, our company has provided innovative online dementia-care training curriculum, certification, and credentialing for professionals and family caregivers. Throughout our history, we have never received outside investment from an investor or venture capital firm.

It appears that Senator Vance likely invested in a company by the same name on the East Coast also called Healthcare Interactive, dba HCIActive, in Ellicott City, Maryland—an insurance and healthcare platform for digital group and individual policy enrollment.

HealthCare Interactive, Inc. of Minneapolis is non-partisan and dedicated to the quality care of people living with dementia. Our nationally recognized online dementia-care training curriculum, certification, and credentialing programs incorporate the evidence-based CARES® Dementia 5-Step Method™ and has received numerous awards and publications.

We wish both Senator Vance and Governor Walz the best in their campaigns for Vice President.

I am happy to personally answer any questions pertaining to this matter.

Sincerely,

A handwritten signature in cursive script that reads "John V. Hobday".
